

State grants \$2M for APS commercial beamline

Illinois Gov. Jim Edgar has released a \$2 million state grant to Argonne to begin development of a commercial beamline at the Advanced Photon Source (APS).

"The commercial beamline project has the potential to draw thousands of jobs to Illinois," the governor said. "Technology-driven companies will be able to conduct research important to their competitiveness, and there is the potential for new commercial ventures to stem from APS research. This initiative will help expand the successes of Illinois' Silicon Prairie to biotechnology and other exciting areas."

The commercial beamline will enable scientists to look at the properties of technologically important materials in greater detail than ever

before. The clearer the picture, the more information scientists are able to collect to help design drugs, produce better materials, create products and advance science.

"I am very pleased with the long-term commitment Governor Edgar and the legislature have shown to technology investment at Argonne," said David Moncton, associate laboratory director for the APS. "Funding for the commercial beamline will enable us to offer the world's most advanced X-ray technology to hundreds of enterprises within Illinois and attract many outside the state to work here."

The commercial beamline is expected to be heavily used by industrial concerns that do not have any other access to the APS technology. The \$2 million in funding

is for first-year design and procurement costs for the project. Total project costs over a multi-year period are expected to be about \$8.7 million.

Free access to science 'Web' offered

Now through Feb. 2, Argonne-East employees can use the Web to access the Institute for Scientific Information's "Web of Science," a new interface to the Science Citation Index Expanded and Social Sciences Citation Index.

The Web of Science permits users to search for articles by author, title, and keyword, and permits citation searches for all of an author's publications. The database is equivalent to indexes currently available on CD-ROM in the Argonne libraries, but the web version supports simultaneous searches of 10 years of data.

Searches can be restricted to a certain number of years, a particular language or document type, and Boolean operators can be used to get more accurate results. Results can be sorted and exported to bibliographic management software packages such as Reference Manager or ProCite.

Argonne staff can connect to the Web of Science at <http://isihost.com>. The required password can be obtained by contacting any Argonne library. Argonne is limited to five simultaneous users during the trial period, so employees should remember to log off when exiting the service.

The Information and Publishing Division (IPD) is evaluating this service for possible future purchase and would appreciate comments from users. Please direct comments to any librarian or to Yvette Woell, Manager of Library Services, at ywoell@anl.gov.

Schriesheim leads new state panel on science

Argonne Director Emeritus Alan Schriesheim has been named chairman of the new Illinois Science and Technology Advisory Committee,

Schriesheim

created by Illinois Gov. Jim Edgar to help Illinois plan and execute its efforts in science, math, technology and the environment.

"This Science and Technology Advisory Committee will help Illinois make better use of its technological resources to prepare industries for global competition, and to help educators, researchers and industrialists anticipate and respond to emerging scientific and environmental trends," the governor said.

The committee, part of the Office of the Lieutenant Governor, will help direct the powers of education, economic development and technology in building for Illinois' future.

The new advisory committee replaces the Governor's Science Advisory Committee, whose members will transfer to the Illinois Science and Technology Advisory Committee.

The new committee will:

- Advise the governor and lieutenant governor on science and math education, research and development, uses of technology to meet statewide objectives, and environmental trends and priorities.

- Help coordinate activities to improve math, science and technology literacy for students of all ages through the State Board of Education, the Board of Higher

Education, the Community College Board, the Mathematics and Science Academy, the Teachers Academy for Math and Science, and laboratories, state agencies, museums, colleges and universities.

- Help develop state policies involving science and technology, and help obtain private and federal research and development funds.

- Help maximize federal funding opportunities and programs.

- Explore innovative ways to deliver educational and environmental services through technology.

- Work with education and environmental agencies to expand conservation and environmental awareness.

- Study trends and help governmental agencies inform the public about environmental issues.

Cafeteria commences comment-card kickoff ...

Employees arriving for lunch at Argonne-East's Building 213 Cafeteria may notice a new addition to the lobby: a comment-card deposit box and a bulletin board for replies.

The new comment cards will allow cafeteria patrons to comment on cafeteria service and food quality, and to ask questions.

Dennis Sullivan, who manages the cafeteria for Marriott Corp., said all questions will be answered by him or a member of the cafeteria

staff, then posted on the bulletin board in the lobby.

Argonne's cafeteria rates extremely well in comparison to the industry standard, Sullivan said, and posted a 90 percent overall

satisfaction rate in recent surveys. "But we can always do better," he added. "The cards are a way to let people know that we're responsive to their suggestions for change."

... and boosts its 'beach bash'

A "Valentine Beach Bash" will be held in Argonne-East's Building 213 Cafeteria on Thursday, Feb. 12, from 4:30 p.m. to 8 p.m.

Hot dogs, nachos and subma-

rine sandwiches will be available for purchase.

The person wearing the "most creative beach attire" will win a Marriott weekend package.

PSI hosts one-day seminar on managing a career for success

The Argonne Chapter of Professional Secretaries International will host "Managing Your Career for Success," a one-day seminar for office professionals on Thursday, March 19, and repeated on Friday, March 20.

The seminar will be held from 8 a.m. to 4:30 p.m. at Argonne-East's APS Conference Center, Building 402. The cost is \$85 and includes a continental breakfast and luncheon.

Lillian Bjorseth, founder and

president of Duoforce Enterprises, Inc. and author of two books, will be speaking on the "Eleven Commandments for Success."

Jim Cisek, current president of AudioEducation and Life Skills Training Associates will speak on "Upgrading Your Brainframe — 21st Century Thinking Skills." Cisek has written several major journal articles, six books and three award-winning films.

For more information contact Diane Hawk (EMO) at ext. 2-3582.

PFS hosts on-site speech course

The College of DuPage will present Fundamentals of Speech, a five-credit-hour course beginning Thursday, Feb. 5, at 4:30 p.m. in Argonne-East's Building 200, Room J183.

Hosted by the Plant Facilities and Services Division, the course includes communication theory as well as speech preparation and delivery. Enrollment is open to any

Argonne employee, and there are no prerequisites.

The 10-week course will meet in three-hour sessions. Cost is \$340 plus \$45 for the textbook. Course credit will apply toward a four-year degree. Registration must be completed by Friday, Jan. 30.

For more information, call Karen Kroczeck (PFS) at ext. 2-8764.

Sim City

Firefighters ponder their next move as a hazardous materials incident unfolds in downtown "Abbottville," a simulated town set up in the Advanced Photon Source gallery at Argonne-East on Jan. 9. About two dozen members of local fire departments took part in the exercise, which unfolded in a model municipality on a 12-by-18 foot table. State and county representatives also participated in the training, which helps emergency responders practice tactics and incident command. *Photo by Wes Agresta*

HR plans classes on stress management and office skills ...

Human Resources will offer several new classes in stress management and office skills in upcoming weeks at Argonne-East.

Complete class information, and registration and enrollment forms can be found on the HR home page (<http://www.anl.gov/HR/home.html>) under "performance development."

■ **Effective Meetings (HR636)** — Wednesday, Jan. 28, from 1 p.m. to 5 p.m. in Building 402, Room

E1100. This class is free. For more information, call John Hyzer (HR) at ext. 2-3503.

■ **Stress Management Workshop: Health Under Stress (HR337)** — Thursdays from Jan. 22 through March 26 from 9 a.m. to 10:15 a.m. in Building 201, Medical Department. The cost is \$40. Call Mike Atella (HR) at ext. 2-2807 for more information.

■ **Organizational Stress Man-**

agement Workshop For Managers and Supervisors (HR338) — Fridays from Jan. 23 through March 27, from 9 a.m. to 10:15 a.m. in Building 201, Medical Department. The cost is \$40. Call Mike Atella (HR) at ext. 2-2807 for more information.

The following two classes require early registration, call Betty Iwan at ext. 2-3410 by Tuesday, Jan. 27:

■ **The Indispensable Assistant**

(HR332) — Wednesday, Feb. 18 from 9 a.m. to 4 p.m. in Building 402, Room E1100. The cost is \$175. Call Betty Iwan at ext. 2-3410 for more information.

■ **Technical Communication (HR220)** — An eight-week course to be held on Wednesdays from 2:30 p.m. to 5 p.m. in Building 201, Room 190A, beginning Feb. 18. The cost is \$350. For more information, call John Hyzer (HR) at ext. 2-3503.

... and ECT schedules classes on common office software

Electronics and Computing Technologies will offer several classes in office computer software in February.

Unless otherwise specified, classes are limited to eight participants, cost \$135 and will be held in Argonne-East's Building 221, Room A142.

Complete class descriptions and schedules are available on line at <http://www.anl.gov/ECT/courses/>. For information about enrollment procedures, call Diane Cavazos (ECT) at ext. 2-7153 or send e-mail to dkcavazos@anl.gov.

■ **Internet-Explorer (ECT322)** — Prerequisites: Windows 95.

Thursday, Feb. 5, 8:30 a.m. - 11:30 a.m. Location to be decided; class size limited to 10.

■ **Internet-Netscape (ECT321)** — Prerequisites: Windows 95. Thursday, Feb. 5, 1:30 p.m. - 4:30 p.m. Location to be decided; class size limited to 10.

■ **Intermediate Windows 95 (ECT305)** — Prerequisite: Introduction to Windows 95. Tuesday, Feb. 10, 8:30 a.m. - 11:30 a.m.

■ **Word 7.0 Everyday Tasks Made Easier (ECT324)** — Tuesday, Feb. 10, 1:30 p.m. - 4:30 p.m.

■ **Excel 7.0 Managing Workbooks (ECT326)** — Wednesday, Feb. 11, 8:30 p.m. - 11:30 p.m.

■ **Intermediate PowerPoint Version 7.0 (ECT308)** — Prerequisites: Introduction to Windows 95 and Introduction to PowerPoint 7.0. Wednesday, Feb. 11, 1:30 p.m. - 4:30 p.m.

■ **Intermediate Access Version 7.0 (ECT309)** — Prerequisite: Introduction to Access. Thursday, Feb. 12, 8:30 a.m. - 4:30 p.m. Cost: \$195.

■ **Introduction to Windows 95 (ECT300)** — Tuesday, Feb. 17, 8:30 a.m. - 11:30 a.m.

■ **Word Version 7.0 Advanced Formatting Features (ECT319)** — Prerequisites: Introduction to Windows 95 and Introduction to Word 7.0. Tuesday, Feb. 17, 1:30 p.m. -

4:30 p.m.

■ **Advanced Excel Functions (ECT320)** — Prerequisites: Introduction to Windows 95 and Introduction to Excel 7.0. Wednesday Feb. 18, 8:30 a.m. - 11:30 a.m.

■ **Introduction to PowerPoint Version 7.0 (ECT303)** — Wednesday, Feb. 18, 1:30 p.m. - 4:30 p.m. Prerequisites: Introduction to Windows 95.

■ **Beginning Unix (ECT564)** — This class consists of two, three-hour sessions for a total of 6 hours. First Session: Tuesday, Feb. 24, 9 a.m. - noon. Second Session: Thursday, Feb. 26, 9 a.m. - noon. Class size is limited to 7. Cost: \$245.

WIST on the Web

The Women in Science and Technology (WIST) home page has a new look and new features, including a listserver for announcements. WIST helps further Argonne's goals of recruiting more women for the laboratory's technical staff and promoting women into professional and management positions. The page is at <http://epics.aps.anl.gov/~banerjee/wist/>.

Step aerobics class offered in evenings

Aerobic step classes are offered on Tuesday and Thursday evenings in Argonne-East's Advanced Photon Source gallery, Building 401, from 5:15 p.m. to 6 p.m.

For more information, call Midge Urban (ES) at ext. 2-3724 or Julie Muzzarelli (DIS) at ext. 2-5416.

Severe weather workshops set

Argonne employees are invited to attend an advanced severe weather preparedness training program at Wheaton College March 5, 6 and 7.

Workshops will include severe weather forecasting, sheltering and effects. A spotter workshop will be held on Saturday, March 7.

For more information, or to register, contact Mary Goodkind (ESH) at ext. 2-3316, or send e-mail to megoodkind@anl.gov.
